A BILL TO BE ENTITLED

AN ACT

relating to physical activity requirements and physical fitness
assessment for certain public school students.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Sections 28.002(l) and (l-1), Education Code, are
amended to read as follows:

(1) A school district shall [The State Board of Education,
after consulting with educators, parents, and medical
professionals, by rule may] require a student enrolled in
kindergarten or a grade level below grade six [nine] to participate
in moderate or vigorous daily physical activity for at least 30
minutes throughout the school year as part of the [a school]
district's physical education curriculum or through structured
activity during a school campus's daily recess[, except that the
board may not require more than 30 minutes of daily physical
activity]. A school district shall require students enrolled in
grade levels six, seven, and eight to participate in moderate or
vigorous daily physical activity for at least 30 minutes for at
least four semesters during those grade levels as part of the
district's physical education curriculum. If a school district
determines, for any particular grade level below grade six, that
requiring moderate or vigorous daily physical activity is impractical due to scheduling concerns or other factors, the district may as an alternative require a student in that grade level to participate in moderate or vigorous physical activity for at least 135 minutes during each school week [the board adopts rules under this subsection, the board must ensure by rule that students enrolled in middle and junior high school settings are allowed to meet the physical activity requirement by participating in physical activity twice each week throughout the school year or the option to schedule at least two semesters overall]. Additionally, a school district may as an alternative require a student enrolled in a grade level for which the district uses block scheduling to participate in moderate or vigorous physical activity for at least 225 minutes during each period of two school weeks. A school district [if the board adopts rules under this subsection, the board] must provide for an exemption for:

(1) any student who is unable to participate in the required [daily] physical activity because of illness or disability; and

(2) a middle school or junior high school student who participates in an extracurricular activity with a moderate or vigorous physical activity component that is considered a structured activity under rules adopted by the commissioner [State Board of Education].

(1-1) In adopting rules relating to an activity described by
Subsection (1)(2), the commissioner [State Board of Education] may permit an exemption for a student who participates in a school-related activity or an activity sponsored by a private league or club only if the student provides proof of participation in the activity.

SECTION 2. Section 28.004, Education Code, is amended by amending Subsection (k) and adding Subsection (l) to read as follows:

(k) A school district shall publish in the student handbook and post on the district's Internet website, if the district has an Internet website:

(1) a statement of the policies adopted to ensure that elementary school, middle school, and junior high school students engage in at least the amount and level [30 minutes per school day or 155 minutes per school week] of physical activity required by Section 28.002(1); [and]

(2) a statement of:

(A) the number of times during the preceding year the district's school health advisory council has met;

(B) whether the district has adopted and enforces policies to ensure that district campuses comply with agency vending machine and food service guidelines for restricting student access to vending machines; and

(C) whether the district has adopted and enforces policies and procedures that prescribe penalties for the use of
tobacco products by students and others on school campuses or at school-sponsored or school-related activities; and

(3) a statement providing notice to parents that they can request in writing their child's physical fitness assessment results at the end of the school year.

(1) The local school health advisory council shall consider and make policy recommendations to the district concerning the importance of daily recess for elementary school students. The council must consider research regarding unstructured and undirected play, academic and social development, and the health benefits of daily recess in making the recommendations. The council shall ensure that local community values are reflected in any policy recommendation made to the district under this subsection.

SECTION 3. Chapter 38, Education Code, is amended by adding Subchapter C to read as follows:

SUBCHAPTER C. PHYSICAL FITNESS ASSESSMENT

Sec. 38.101. ASSESSMENT REQUIRED. (a) Except as provided by Subsection (b), a school district annually shall assess the physical fitness of students enrolled in grades 3 through 12.

(b) A school district is not required to assess a student for whom, as a result of disability or other condition identified by commissioner rule, the assessment instrument adopted under Section 38.102 is inappropriate.

Sec. 38.102. ADOPTION OF ASSESSMENT INSTRUMENT. (a) The
commissioner by rule shall adopt an assessment instrument to be used by a school district in assessing student physical fitness under this subchapter.

(b) The assessment instrument must:

(1) be based on factors related to student health, including the following factors that have been identified as essential to overall health and function:

(A) aerobic capacity;

(B) body composition; and

(C) muscular strength, endurance, and flexibility;

and

(2) include criterion-referenced standards specific to a student's age and gender and based on the physical fitness level required for good health.

Sec. 38.103. REPORTING OF SUMMARY RESULTS. (a) A school district shall compile the results of the physical fitness assessment required by this subchapter and provide summary results, aggregated by grade level and any other appropriate category identified by commissioner rule, to the agency. The summary results may not contain the names of individual students or teachers.

(b) The results of individual student performance on the physical fitness assessment instrument are confidential and may be released only in accordance with state and federal law.

Sec. 38.104. ANALYSIS OF RESULTS. (a) The agency shall
analyze the results received by the agency under this subchapter
and identify, for each school district, any correlation between the
results and the following:

(1) student academic achievement levels;
(2) student attendance levels;
(3) student obesity;
(4) student disciplinary problems; and
(5) school meal programs.

(b) The agency may contract with a public or private entity
for that entity to conduct all or part of the analysis required by
Subsection (a).

(c) Not later than September 1 of each year, the agency shall
report the findings of the analysis under this section of the
results obtained during the preceding school year to the School
Health Advisory Committee established under Section 1001.0711,
Health and Safety Code, for use by the committee in:

(1) assessing the effectiveness of coordinated health
programs provided by school districts in accordance with Section
38.014; and

(2) developing recommendations for modifications to
coordinated health program requirements or related curriculum.

Sec. 38.105. DONATIONS. The agency and each school district
may accept donations made to facilitate implementation of this
subchapter.

Sec. 38.106. RULES. The commissioner shall adopt rules
necessary to implement this subchapter.

SECTION 4. Not later than September 1, 2008, the Texas Education Agency, in consultation with the School Health Advisory Committee established under Section 1001.0711, Health and Safety Code, shall provide a report to the legislature that details options and recommendations for providing moderate or vigorous daily physical activity for students for at least 30 minutes outside the seven-hour instructional day. The options and recommendations must be developed with consideration for the needs of students who are enrolled in multiple enrichment curriculum courses.

SECTION 5. The commissioner of education shall adopt the physical fitness assessment instrument required under Subchapter C, Chapter 38, Education Code, as added by this Act, and rules necessary to implement that subchapter not later than the date that enables the instrument to be used by school districts during the 2007-2008 school year.

SECTION 7. Subsection (1), Section 28.002, Education Code, as amended by this Act, applies to students enrolled in kindergarten or a grade level below grade six beginning with the 2007-2008 school year and to students enrolled in grade levels six through
eight beginning with the 2008-2009 school year.

SECTION 8. Except as otherwise provided by this Act, this Act applies beginning with the 2007-2008 school year. This Act shall apply to junior high or middle schools only upon adoption of a coordinated school health program for these grades by the Texas Education Agency.

SECTION 9. This Act takes effect immediately if it receives a vote of two-thirds of all the members elected to each house, as provided by Section 39, Article III, Texas Constitution. If this Act does not receive the vote necessary for immediate effect, this Act takes effect September 1, 2007.
Senate Bill 530
Conference Committee Report
Section-by-Section Analysis

SENATE VERSION

SECTION 1. Subsections (l) and (l-1), Section 28.002, Education Code, are amended. Among other provisions, Subsection (l) requires a school district, rather than allowing the State Board of Education by rule, to require a student enrolled in kindergarten or a grade level below grade nine to participate in moderate or vigorous daily physical activity for at least 30 minutes as part of a school district's physical education curriculum.

SECTION 2. Subsection (k), Section 28.004, Education Code, requiring a school district to publish certain information in the student handbook and post on the district's Internet website, if the district has an Internet website, is amended. Among other provisions, requires a statement providing notice to parents that they can request in writing their child's physical fitness assessment results at the end of the school year.

HOUSE VERSION

SECTION 1. Same as Senate version except requires a school district to require a student enrolled in kindergarten or a grade level below grade six to participate in moderate or vigorous daily physical activity for at least 30 minutes throughout the school year as part of the district's physical education curriculum or through structured activity during a school campus's daily recess. Also mandates a school district requirement that students enrolled in grade levels six, seven, and eight participate in moderate or vigorous daily physical activity for at least 30 minutes for at least four semesters during those grade levels as part of the district's physical education curriculum.

SECTION 2. Same as Senate version except omits the requirement for publication of the parental notification regarding a parent's entitlement to a child's physical fitness assessment results and adds Subsection (l) to require the local school health advisory council to consider and make policy recommendations to the district concerning the importance of daily recess for elementary school students; to consider research regarding unstructured and undirected play, academic and social development, and the health benefits of daily recess in making the recommendations; and to ensure that local community values are reflected in any policy recommendation it makes to the district.
