Heavenly Father, we come to you today acknowledging your awesome power in creating this world and for your control over all things, including the affairs of mankind. We come thanking you for another day and for the privilege of serving our God and country through the tasks we perform today. We ask this day that your spirit be upon every member of this house. May you give us a spirit of wisdom and understanding, of counsel and might, of knowledge, and of fear of you, and may we all take comfort in knowing you are looking down upon us this day.

Please bless every spouse of a house member today. May they know they are loved, and may you give them an extra measure of grace to make it through the day while their partner is away. We pray a blessing upon every child and grandchild who brings a smile to the face and a gleam to the eye of the people who gather here to serve. Give our children special counsel and comfort, and allow us as parents to keep that calling as priority number one even as a hectic day unfolds here at the Capitol.

Most of all, please bless us as your people who have gathered here to serve today. Give us a joy for our work and a spirit of camaraderie and mutual friendship. May this session end on a high note of friendship and mutual respect, and may friendships blossom in this chamber that will serve each member for a lifetime. We pray this prayer, with respect for all faiths, in the name of Jesus Christ. Amen.

CSHB 2268 - STATEMENT OF LEGISLATIVE INTENT

REPRESENTATIVE BURNAM: Mr. Murphy, could you explain this bill and if there are any safeguards to keep TxDOT from abusing—we've had conversations about my utter distrust of TxDOT—environmental issues?

REPRESENTATIVE MURPHY: Sure, I understand that and I appreciate that your questions are well-intended on this bill. The environmental protections in this bill are in addition to what's required under NEPA and the other statutes under the construction of roadways. The environmental regulation here asks TxDOT to conduct a study of that property and make sure it's suitable for

highway construction before acquiring it. So this is in addition to before they do construction, there will still be the whole NEPA process, Representative Burnam. So nothing is taken away from environmental regulations. In fact, it's added to, just to make sure we don't acquire property that's unsuitable for the purposes of transportation construction.

The motion prevailed.
