

BILL ANALYSIS

C.S.H.B. 1844
By: Workman
Judiciary & Civil Jurisprudence
Committee Report (Substituted)

BACKGROUND AND PURPOSE

Interested parties contend that the protections provided for certain construction-related contracts concerning real property in Texas with respect to another state's law, litigation in the courts of another state, or arbitration in another state should be extended to other types of construction-related contracts. C.S.H.B. 1844 seeks to provide for this extension.

CRIMINAL JUSTICE IMPACT

It is the committee's opinion that this bill does not expressly create a criminal offense, increase the punishment for an existing criminal offense or category of offenses, or change the eligibility of a person for community supervision, parole, or mandatory supervision.

RULEMAKING AUTHORITY

It is the committee's opinion that this bill does not expressly grant any additional rulemaking authority to a state officer, department, agency, or institution.

ANALYSIS

C.S.H.B. 1844 amends the Business & Commerce Code to change the type of construction-related contract to which the statutory provision making voidable a contract provision that subjects the contract or any conflict arising under the contract to another state's law, litigation in the courts of another state, or arbitration in another state applies from a contract principally for the construction or repair of an improvement to real property located in Texas to a construction contract, as defined by the bill, concerning real property located in Texas or an agreement collateral to or affecting the construction contract. The bill changes the party that may void the provision from the party obligated by the contract to perform the construction or repair to the party obligated by the contract or agreement to perform the work that is the subject of the construction contract.

C.S.H.B. 1844 defines "construction contract" as a contract, subcontract, or agreement entered into or made by an owner, architect, engineer, contractor, construction manager, subcontractor, supplier, or material or equipment lessor for the design, construction, alteration, renovation, remodeling, or repair of, or for the furnishing of material or equipment for, a building, structure, appurtenance, or other improvement to or on public or private real property, including moving, demolition, and excavation connected with the real property. The bill includes in the term an agreement to which an architect, engineer, or contractor and an owner's lender are parties regarding an assignment of the construction contract or other modifications thereto.

C.S.H.B. 1844 retains the inapplicability of the voidable contract provision to certain contracts but changes the purpose of the applicable contracts from the construction or repair of the real property improvement to the performance of work that is the subject of the construction contract.

EFFECTIVE DATE
