EXECUTIVE ORDER

NPC - 30

ESTABLISHING A STATE PERSONNEL MANAGEMENT TASK FORCE TO STUDY AND DEVELOP RECOMMENDATIONS TO THE GOVERNOR AND THE LEGISLATURE REGARDING THE STATE OF TEXAS PERSONNEL PRACTICES AND PROCEDURES

WHEREAS, the rapid growth of this state's economy and population has created greater demand for limited state agency resources; and

WHEREAS, improved state agency personnel productivity provides the most cost-effective means to meet the growth in the demand for state services; and

WHEREAS, state agencies vary significantly in personnel policies in areas such as classification and salary administration, performance planning and evaluation, merit administration, and management development which causes interagency inequity; and

WHEREAS, simultaneous effort by individual agencies to resolve common personnel problems result in an inefficient use of manpower and other resources; and

WHEREAS, many employees and managers have stated that present agency management training and development efforts need to be strengthened; and

WHEREAS, various studies in recent years including the Statewide Personnel Project and the House Select Committee on Productivity Personnel Study have indicated major deficiencies and inconsistencies in the operation of the overall state personnel function; and

WHEREAS, the complexity of personnel matters in terms of legislation, employee attitudes and social changes has increased materially in the last decade, and the legislature has no single source for advice on comprehensive state personnel policies; and

WHEREAS, it is imperative that better methods of state personnel administration be developed to improve agency productivity; and

WHEREAS, V.A.C.S., Article 4413 (32a) designates the Governor as the Chief Planning Officer of the State.
