DIGEST

The Committee on Human Services Interim Report sets forth legislative recommendations relating to carrying out the intent of the welfare reform package. This bill would implement such recommendations. This bill would state that Aid to Families with Dependent Children payments may be used only to purchase goods and services that are considered essential and necessary to the welfare of the family and directs the Department of Human Services (DHS) to define, by rule, what constitutes essential and necessary goods and services. Additionally, this bill would direct DHS to encourage certain retailers to accept payment through the state's electronic benefit transfer (EBT) system and to conduct a pilot project in which these retailers use the EBT system.

PURPOSE

As proposed, H.B. 1439 provides that Aid to Families with Dependent Children payments may be used only to purchase goods and services that are considered essential and necessary to the welfare of the family and directs the Department of Human Services (DHS) to define, by rule, what constitutes essential and necessary goods and services. Additionally, this bill directs DHS to encourage certain retailers to accept payment through the state's electronic benefit transfer (EBT) system and to conduct a pilot project in which these retailers use the EBT system.

(c) Requires DHS to encourage housing authorities, utility companies, public transportation companies, and other nonfood retailers to accept payment for goods and services described by Subsection (a) through the state's EBT system.
