Committee Report (Substituted)

DIGEST

Currently, the Department of Human Services (department) has an evaluation team that conducts research on the department's programs; however, the existence of the research department is at the discretion of the commissioner of the agency. There have been a number of instances in which the evaluation unit was dissolved, most recently in 1989. The current unit was established in 1992. Recreating the evaluation unit is a time-consuming process that could be avoided if the department was required to maintain the unit at all times. This bill will require the department to evaluate and improve its programs.

PURPOSE

As proposed, C.S.H.B. 2126 requires the Department of Human Services to evaluate and improve its programs.

RULEMAKING AUTHORITY

This bill does not grant any additional rulemaking authority to a state officer, institution, or agency.
