DIGEST

Currently, under Article 21.28-C, Insurance Code, the Texas Property and Casualty Insurance Guaranty Association is required to pay the unpaid covered claims of an insolvent insurer. The limit on covered claims is \$100,000, and unearned premium refunds are limited to 75 percent up to a maximum of \$1,000. However, a family could easily experience a homeowners insurance loss in excess of \$100,000, particularly in the event of a natural disaster. This bill would remove the 75 percent limit and raise the maximum allowable amount to be paid on individual covered claims to \$300,000.

PURPOSE

As proposed, H.B. 2437 removes the 75 percent limit on unearned premiums, raises the maximum allowable amount to be paid on covered claims to \$25,000, and raises the limit on individual covered claims to \$300,000.

RULEMAKING AUTHORITY

This bill does not grant any additional rulemaking authority to a state officer, institution, or agency.
