DIGEST

In 1989, Senate Bill 1 changed the Texas Workers' Compensation Assigned Risk Pool to the Texas Workers' Compensation Insurance Facility (facility). In 1991, House Bill 62 mandated that the facility should cease writing new policies on or after January 1, 1994 and cease being the insurer of last resort, and required that its claim assets and liabilities be transferred to the Texas Workers' Compensation Insurance Fund no later than January 1, 1999. H.B. 976 transfers control of all of the assets, liabilities and obligations of the facility to the Texas Property and Casualty Insurance Guaranty Association. It also provides for the privatization of facility's account should the association, with approval of the Commissioner of Insurance, determine that privatization is in the best interest of the State of Texas.

PURPOSE

As proposed, H.B. 976 transfers control of all of the assets, liabilities and obligations of the Texas Workers' Compensation Facility (facility) to the Texas Property and Casualty Insurance Guaranty Association. It also provides for the privatization of facility's account should the association, with approval of the commissioner of insurance, determine that privatization is in the best interest of the State of Texas.

RULEMAKING AUTHORITY

This bill does not grant any additional rulemaking authority to a state officer, institution, or agency.
