### **DIGEST**

Currently, Guadalupe County is primarily composed of farming and ranching communities. Some citizens of the county speculate that the creation of an underground water conservation district will aid in the regulation of water use and water quality, as well as support local efforts to experiment with weather modification. S.B. 1582 would outline provisions regarding the creation, administration, powers, duties, operation, and financing of the Guadalupe County Groundwater Conservation District.

As proposed, S.B. 1582 outlines provisions regarding the creation, administration, powers, duties, operation, and financing of the Guadalupe County Groundwater Conservation District.
