### **DIGEST**

Currently, the Texas Department of Transportation is responsible for regulations relating to motor vehicle registration. There are technical corrections to the registration statutes that are necessary for clarity. Wire service agents are needed to provide customer service due to the volume of temporary permits issued. In addition, the transportation industry is moving toward a standard that can include nominal tonnage rating and gross vehicle weight rating, in addition to the manufacturer's rated carrying capacity, when determining the gross vehicle weight of a vehicle for fee purposes. This bill will provide new regulations regarding motor vehicle registration.

### **PURPOSE**

As proposed, S.B. 1630 provides new regulations regarding motor vehicle registration.
