### **DIGEST**

Currently, several counties are funding their volunteer fire departments from the counties' general revenue fund and ad valorem taxes. A fee collected on vehicle registrations would allow counties to obtain proper funding for the volunteer fire department. Such a fee may allow the volunteer firefighters to spend less time on fundraising and more time on training and responding to emergencies. This bill would authorize a county on a local optional basis to establish a "fire protection fund" based on the imposition of fees collected from vehicle registrations.

### **PURPOSE**

As proposed, S.B. 1848 authorizes a county on a local optional basis to establish a "fire protection fund" based on the imposition of fees upon vehicle registrations within the county.

### **RULEMAKING AUTHORITY**

This bill does not grant any additional rulemaking authority to a state officer, institution, or agency.
