### **DIGEST**

Currently, school districts are allowed to begin the school calendar year according to the school district's needs. Many communities that depend on summer tourism have expressed the concern that revenue is lost because families often must leave early for their students to return to school. S.B. 433 establishes a statewide start date for schools, which provides for greater coordination of family and student activities during the summer season.

### **PURPOSE**

As proposed, S.B. 433 establishes a statewide start date for schools, which provides for greater coordination of family and student activities during the summer season.
