DIGEST

Currently, urban school children in Texas are suffering from a lack of knowledge of agriculture, even though many schools have agriculture as part of their curriculum. Textbooks and lectures are marginally effective in teaching children about agriculture. Demonstrations and hands-on participation are the most effective means of teaching children about agriculture. This bill would create a grant program at the Texas Department of Agriculture to be used by elementary schools in large urban public school districts for the purpose of establishing demonstration agriculture projects.

PURPOSE

As proposed, S.B. 1265 creates a grant program at the Texas Department of Agriculture to be used by elementary schools in large urban public school districts for the purpose of establishing demonstration agriculture projects.
