DIGEST

Currently, appropriations for the State Pension Review Board (board) are financed by general revenue and contributions to the State Pension Review Board Fund. These contributions are authorized by statute and are made voluntarily by the many pension plan participants overseen by the board. In the fiscal year 1998-99 biennium, approximately \$445,000 in general revenue is appropriated to the board; the dedicated fund contributes \$120,000. While the board plays a role in oversight of the Employees Retirement System (ERS) and the Teacher Retirement System (TRS), neither system makes a contribution to the board for its services. S.B. 1867 would require TRS and ERS each to make an annual contribution of \$200,000 to the State Pension Review Board.

PURPOSE

As proposed, S.B. 1867 requires the Teacher Retirement System and the Employees Retirement System to make contributions to the State Pension Review Board.

RULEMAKING AUTHORITY

This bill does not grant any additional rulemaking authority to a state officer, institution, or agency.
