DIGEST AND PURPOSE

The Bee County Groundwater Conservation District (district) was created during the 75th Legislature. After the confirmation election, the directors of the district discovered that the language in the bill did not comply with election law. As proposed, S.B. 1036 brings the district into line with current law and establishes that the district will have a uniform election date to elect the district's directors.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
