DIGEST AND PURPOSE

The Texas Legislative Council is required by law to carry out a complete nonsubstantive revision of the Texas statutes. The process involves reclassifying and rearranging the statutes in a more logical order; employing a numbering system and format that will accommodate future expansion of the law; eliminating repealed, invalid, duplicative, and other ineffective provisions; and improving the draftsmanship of the law if practicable. These efforts are carried out in order to make the statutes more accessible, understandable, and usable without altering the sense, meaning, or effect of the law. This bill makes nonsubstantive revisions to and corrections in enacted codes, including the nonsubstantive codification of various laws omitted from enacted codes, and to conforming codifications enacted by the 76th Legislature to other Acts of that legislature.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
