### **DIGEST AND PURPOSE**

Currently, a board of trustees of an independent school district that changes to single member district plans must, as a general rule, fill all positions on the board at the first single member district trustee election and in the subsequent redistricting of their election systems. However, districts that adopt a “5-2 plan” have the option to use a staggered term process at the first single member district trustee election and in the subsequent redistricting of their election systems.

As proposed, S.B. 1705 authorizes all single-member district plans utilizing single-member districts with staggered terms to be given the option to allow incumbent trustees to serve the unexpired portion of their terms by phasing in redrawn districts.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
