DIGEST AND PURPOSE

The Collin County Water Authority was created in 1982 to provide a countywide water and wastewater authority in unincorporated areas of the county. Since that time, urban growth, assimilation of service areas, and the expansion of the North Texas Municipal Water District has lessened the need for the Collin County Water Authority. As proposed, S.B. 926 abolishes the Collin County Water Authority.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
