### **DIGEST AND PURPOSE**

H.B. 15 regulates abortion and abortion providers. It requires abortions performed at or after the 16th week of pregnancy to be performed in a licensed hospital or ambulatory surgical center; requires certain information and materials, including full-color representation of gestating fetuses and information about pregnancy and adoption agencies and available services to be supplied and/or offered to a woman seeking an abortion; requires a 24-hour wait after receiving the information before the abortion can occur; and creates an offense for a physician who intentionally violates this subchapter. H.B. 15 also lowers the number of abortions that can be performed in a facility without the facility being licensed as an abortion provider.

### **RULEMAKING AUTHORITY**

Rulemaking authority is expressly granted to the Texas Department of Health in SECTION 1 (Section 171.014, Health and Safety Code) of this bill.
