AUTHOR'S/SPONSOR'S STATEMENT OF INTENT

Current law allows cities and water districts to contract with one another under a strategic partnership agreement and limited purpose annexation that allows the city to levy a sales tax in the commercial area of a district that it intends to eventually fully annex. The district in return receives a portion of the tax revenue raised by the city. Some districts apply the revenue toward bonded indebtedness in order to reduce the tax rate for their residents. Other districts would like to use the money for other purposes. H.B. 1599 allows the district to use the tax revenue for any purpose of the city or the district.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
