AUTHOR'S/SPONSOR'S STATEMENT OF INTENT

H.B. 908 prohibits the use of reverse auctions in obtaining goods or services, including professional or consulting services subject to Chapter 2254, related to the construction, remodeling, repair, or maintenance of a building or public work. H.B. 908 deletes the language requiring the Texas Building and Procurement Commission (TBPC) to use reverse auctions at least 30 percent of the time and instead requires TBPC to use the reverse auction procedure when the procedure provides the best value to the state or all purchasing methods provide equal value to the state. H.B. 908 also adds language requiring TBPC to offer historically underutilized businesses assistance and training relating to the reverse auction procedure and advise historically underutilized businesses on contracts available using the reverse auction procedure. H.B. 908 adds new language requiring TBPC to set a goal of purchasing at least 20 percent of the dollar value of goods or services purchased by TBPC using the reverse auction procedure.

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
