AUTHOR'S/SPONSOR'S STATEMENT OF INTENT

Duval County currently has three water districts, but the creation of a groundwater district (district) will be helpful to protect and regulate the county's water for future use. It will authorize the district to purchase, sell, and distribute groundwater or surface water. The creation of a new water district will not dissolve any of the existing water districts.

As proposed, S.B. 1847 creates a groundwater conservation district in Duval County in order to monitor, manage, and conserve groundwater.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
