### AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

The Texas Election Code and federal rules require electronic voting machines at polling places to ensure accessibility to those with disabilities. An electronic voting machine can add substantial fiscal implications to the cost of conducting an election for very small municipalities.

H.B. 1146 authorizes cities that have a population of less than 250 to conduct elections entirely by mail. This will save them the cost of the electronic voting machine, while still making it easy for voters with disabilities to cast a ballot.

### RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
