AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Currently, the lack of useful interaction and data sharing among state agencies has become a hindrance to efficient governance and to state services provided to Texas residents.

H.B. 921 establishes an interagency information sharing pilot program and creates the Texas Health Care Policy Council (council). This bill requires the council, in consultation with the Department of Information Resources, to develop standards for the secure electronic sharing of information between participating agencies. H.B. 921 provides that this pilot program expires September 1, 2013.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
