AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

The Railroad Commission of Texas administers an abandoned mine land reclamation program that uses federal funds to reclaim eligible abandoned mine lands. Currently, the Surface Coal Mining and Reclamation Act provides that reclaimed property of a person who owned the surface before May 2, 1977, is exempt from a reclamation lien.

As proposed, S.B. 1666 eliminates the requirement of ownership before May 2, 1977, to be eligible for a lien exemption to harmonize the state statute with current federal law.

This bill does not expressly grant any additional rulemaking authority to any state officer, institution, or agency.
