AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Texas Mutual Insurance Company (TMIC) is a mutual insurance company created by the State of Texas in 1991, but it is not a state agency for any purpose. TMIC's principal purposes are to (1) serve as a competitive force in the market; (2) guarantee the availability of workers' compensation insurance in the state; and (3) serve as the insurer of last resort.

TMIC was made subject to the Public Information Act (PIA) and the Open Meetings Act (OMA) due to problems associated with the former Assigned Risk Pool/Texas Workers' Compensation Insurance Facility. In its fifteenth year of operation, TMIC has experienced none of the same problems, has demonstrated its reliability, and should be removed from the PIA and OMA. The company covers over 25 percent of the Texas workers' compensation market, and it has built the financial strength to weather almost any market conditions.

TMIC operates entirely on premium and investment income from business operations, with no public funds, and with complete financial independence and separation from the State of Texas. Assets are owned solely by the company; the state has disclaimed any interest in its revenues and assets, and has disavowed any responsibility to its policyholders, claimants, and creditors. Further, it lacks any governmental powers such as law enforcement, regulation, taxation, or condemnation, and it spends no taxpayer money. These are activities that usually require transparency under open records and open meeting laws.

Being subject to the PIA and the OMA places TMIC in a position different from its competitors, forcing it to disclose information not required of its competitors while not allowing the board the flexibility to hold meetings on short notice.

If removed from the requirements of PIA and OMA, TMIC will continue to be accountable to its legislative, policyholder, and regulatory constituencies. It will be relieved of the burden of compliance with the PIA and OMA, and the associated civil and criminal penalties and attorney general supervision, which are inconsistent with its role as an effective competitor that operates with private money.

As proposed, S.B. 192 will remove TMIC from the obligations of the PIA and OMA.
