### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Chapter 823 (Animal Shelters), Health and Safety Code, establishes standards for animal shelters. The Department of State Health Services (DSHS) is responsible for inspecting shelters for compliance with the statute. The current definition states that an animal shelter is a "facility that keeps or legally impounds stray, homeless, abandoned, or unwanted animals." In practice, DSHS does not have the resources to inspect the numerous privately operated backyard kennels in counties such as Harris County.

Serious public health, safety, environmental, and animal cruelty concerns can be associated with these operations, and unlike other sources for acquiring a pet, these private kennels can circumvent mechanisms for ensuring that an animal is appropriately registered, vaccinated, and spayed or neutered. Currently, counties are not authorized to inspect these facilities or issue citations for specific violations of the standards.

H.B. 3004 amends current law relating to animal shelter standards and provides a civil penalty.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
