### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Due to the population of the unincorporated portion of Travis County, the county is required by state law to implement a Storm Water Management Program (SWMP) that includes compliance with a municipal separate storm sewer system (MS4) permit. The Texas Commission on Environmental Quality (TCEQ) assumed authority from the United States Environmental Protection Agency to issue permits and enforce SWMP and has already issued such permits to larger entities under Phase I of SWMP.

TCEQ is now implementing Phase II of SWMP to include Travis County. Chapter 573 (Authority of Certain Counties and Districts to Regulate Stormwater Management), Local Government Code, authorizes Harris County and Bexar County to assess user fees associated with development permits to offset the costs to comply with SWMP. However, Travis County lacks such authority under existing law to implement fees and develop ordinances to carry out SWMP duties.

S.B. 1299 amends current law relating to the regulation of stormwater management by certain counties.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.

### **SECTION BY SECTION ANALYSIS**

SECTION 1. Amends Section 573.001, Local Government Code, as effective April 1, 2009, to provide that this chapter applies only to certain counties, districts, or authorities, including a county with a population of 800,000 or more that contains a portion of the Edwards Aquifer.

SECTION 2. Effective date: upon passage or September 1, 2009.
