AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Currently, genetic counselors are not regulated or licensed by the State of Texas. However, with the increased use of genetic testing in medicine, genetic counselors have become much more involved in the health care landscape.

As proposed, S.B. 1879 establishes a license for genetic counselors and licenses and regulates the practice and the advertising of genetic counseling and genetic counselors. The bill also creates an advisory committee made up of physicians and genetic counselors to guide the Texas Medical Board as it crafts regulations and licensure requirements. Additionally, this bill ensures that only appropriately qualified professionals will provide genetic counseling and that genetic counselors participate in continuing education to stay current on the development in their profession.

RULEMAKING AUTHORITY

Rulemaking authority is expressly granted to the Texas Medical Board in SECTION 1 (Sections 506.102, 506.103, 506.153, 506.204, 506.207, and 506.310, Occupations Code) of this bill.
