AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Chapter 47 of the Penal Code provides a limited exception from the definition of gambling device for electromechanical devices operated for bona fide amusement purposes if the player is awarded only with noncash merchandise prizes worth not more than \$5 or 10 times the amount charged to play the game, whichever is less. The types of machines exempted by the Penal Code are often referred to as amusement redemption machines. Despite the strict standards in the Penal Code, some amusement redemption machine operators operate their machines in violation of the Penal Code by paying cash prizes. While tools exist for law enforcement to prosecute those who violate the Penal Code, enforcement of the Penal Code provisions is more effective in some jurisdictions than others.

As proposed, S.B. 309 implements a new type of license for a location at which more than 10 amusement redemption machines are operated to provide additional enforcement tools to ensure that Penal Code provisions governing gambling devices are not violated. In addition to requiring a license, the bill requires certain records to be kept, requires certain information to be made public, and imposes criminal penalties.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
