### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

H.B. 3391 81st Legislature, Regular Session, 2009, which was the Texas Parks and Wildlife Department's (TPWD) Sunset bill, included a provision that required TPWD to move from a "black list" of exotic aquatic plants that are prohibited in this state to a "white list" concept of plants that are allowed. TPWD worked throughout the interim to establish an Exotic Aquatic Plant White List and accompanying rules.

After months of deliberation between TPWD and stakeholders, it became evident that the proposal was neither enforceable or realistic for Texas. Approval of such a measure would have severely impacted the state's economy and the biofuel, nursery, and gardening industries throughout Texas.

S.B. 1480 would return the regulation of exotic aquatic plants to a "black list" or "prohibited list" approach. In addition, the bill would adjust the penalties related to possession of an exotic aquatic plant downward to allow lesser penalties for minor violations.

All stakeholders involved in the "white list" and rulemaking process requested that TPWD return to a "black list" approach. This legislation reflects an agreed upon approach between TPWD and all affected stakeholders.

As proposed, S.B. 1480 amends current law relating to the regulation of exotic aquatic species by the Parks and Wildlife Department and provides penalties.

### **RULEMAKING AUTHORITY**

Rulemaking authority previously granted to the Texas Parks and Wildlife Department is modified in SECTION 4 (Section 66.007, Parks and Wildlife Code) of this bill.

Rulemaking authority is expressly granted to the Texas Parks and Wildlife Commission in SECTION 6 (Section 66.0072, Parks and Wildlife Code) of this bill.
