C.S.S.B. 260

Committee Report (Substituted)

AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

In recent years, there has been an increase in incidents occurring at child-care facilities and at the hands of child-care workers that have resulted in harm or even death to children. C.S.S.B. 260 increases the hours of training required for workers and directors of child-care facilities.

The bill requires 24 hours of pre-service training, rather than eight hours of pre-service training required under current law, for caregivers. The first eight hours must be completed before the caregiver is responsible for a group of children. After the initial eight hours of training, 90 days is provided for the caregiver to complete the remaining training. This bill authorizes an exemption from the pre-service training requirement if the caregiver has two or more years of experience, rather than if the caregiver has six months of experience as under current law.

Additionally, the required 15 hours of annual training for caregivers is increased to 24 hours, and the 20 hours of required annual training for the director of a child-care facility is increased to 30 hours.

Lastly, the bill requires an employee of a child-care facility to complete an orientation to the facility within seven days of the employee's initial date of employment.

C.S.S.B. 260 amends current law relating to minimum training standards for employees of certain child-care facilities.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.

(1) 24 hours, rather than eight hours, of initial training that must be completed not later than the 90th day after the employee's first day of employment for an employee of a day-care center who has no previous training or less than two years of employment experience in a regulated child-care facility, eight hours of which must be completed before the employee is given responsibility for a group of children;

(2) 24 hours, rather than 15 hours, of annual training for each employee of a day-care center or group day-care home, excluding the director, which must include at least six hours of training in one or more of certain areas; and

(3) 30 hours, rather than 20 hours, of annual training for each director of a day-care center or group-day care home, which must include at least six hours of training in one or more of certain areas.
