AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Currently, in unincorporated county areas, when a property owner's septic system malfunctions and overflows onto the property—directly affecting neighboring properties with odors and vermin—the county has no means of enforcing an order for the property owner to clean and repair the septic overflow.

S.B. 634 defines a surface discharge from an on-site sewage disposal as a "public nuisance" and allows the county to use any means of abatement reasonably necessary to bring the overflowing septic system into compliance after, and only after, the property owner fails to abate the nuisance as ordered by a court.

As proposed, S.B. 634 amends current law relating to regulating faulty on-site sewage disposal systems in the unincorporated areas of a county as a public nuisance, and provides a criminal penalty.
