Committee Report (Substituted)

AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

C.S.S.B. 820 strengthens the current review, or appeal, process within Texas Parks and Wildlife Department (TPWD) in regard to deer permit revocation or non-renewal of permits and directs TPWD to develop certain criteria prior to deer euthanasia.

The deer breeding industry contributes millions of dollars to the Texas economy and is especially significant to rural communities. Deer breeders and others involved in deer management invest considerable money and time in their work.

The internal review process currently used by TPWD for denying or revoking a deer permit gives TPWD the authority to take such an action based on the allegations of wrong doing, rather than a conviction for a violation of the permit. This puts permit holders at risk of losing their permits, as well as their livelihoods, without an allegation being properly adjudicated by TPWD. Under current TPWD procedures, certain violations can result in a deer being destroyed without the permit holder having had the opportunity to request an appeal or provide proof of an animal's disease status, lineage, or other information. Such alleged violations result in deer being destroyed by TPWD officials without proper due process and determination of the violation.

C.S.S.B. 820 amends current law relating to procedures relating to the issuance and renewal of, and certain notice requirements associated with, certain deer permits.

RULEMAKING AUTHORITY

Rulemaking authority is expressly granted to the Texas Parks and Wildlife Commission in SECTION 4 (Section 12.605, Parks and Wildlife Code) of this bill.
