### AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Currently in Texas, there is no mandate for youth sports coaches to be trained or receive background checks before they teach or interact with children. S.B. 1319 requires that any youth coach be screened for a background check, obtain two hours of sports specific training and two hours of non-skills based training. A youth coach is defined as anyone who provides training, teaching or other similar services to children in grades kindergarten through sixth grade.

The sports specific training and non-skills training may only be administered by a certified sports foundation, a national youth sports organization, a coaches association, a national governing body, or a public or private high school or middle school athletic department. The sports specific training may be completed online or in person. However, the non-skills training must be conducted in person and include a variety of lessons from proper communication techniques to accountability to child development. The Texas Commission on Licensing and Regulation is responsible for implementing this chapter.

As proposed, S.B. 1319 amends current law relating to requirements for coaches of youth sports programs.
