### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

The community schools model is a comprehensive school improvement plan with demonstrated success nationally and in Texas for supporting struggling schools through a combination of wraparound services, community partnerships, and high-achieving academics.

Although community schools are operational in Texas, currently there is no definition or uniform set of practices and standards for schools wishing to become a community school. Additionally, while community schools aim at improving failing schools, this model is not officially an option currently in place in lieu of reconstitution.

S.B. 1483 outlines the community school model in statute and allows a school to transition into a community school rather than undergo reconstitution.

As proposed, S.B. 1483 amends current law relating to community schools.
