AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Current law requires that the Health and Human Services Commission (HHSC) plan and implement an efficient and effective centralized system of administrative support services for five health and human services agencies: HHSC, Department of Aging and Disability Services, Department of Assistive and Rehabilitative Services, Department of Family and Protective Services, and Department of State Health Services. Current law also provides that the performance of administrative support services for the health and human services agencies is the responsibility of HHSC.

The term "administrative support services" includes, but is not limited to, strategic planning and evaluation, audit, legal, human resources, information resources, purchasing, contract management, financial management, and accounting services. Aspects of this centralized system of administrative support services for the health and human services agencies have not been fully implemented by HHSC due in part to existing conflicts in law.

S.B. 201 seeks to remove the conflicts in law relating to internal audit and information resource managers to ensure that implementation of a centralized system of administrative support services can be achieved by HHSC.

As proposed, S.B. 201 amends current law relating to the efficiency and consolidation of powers and duties within the health and human services system.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
