AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Under the current Tax Code, businesses involved in the aerospace and defense industry are unable to adjust their taxable margins for certain costs that are properly allocable under the Federal Acquisition Regulation.

The aerospace and defense industry is responsible for hundreds of thousands of jobs, contributes significant revenue to Texas annually, and places Texas among the states with the highest levels of industry-generated revenue, jobs, and exports.

S.B. 514 amends the Tax Code to allow a company to deduct a portion of the costs associated with certain federal contracts or subcontracts for purposes of computation of the franchise tax.

As proposed, S.B. 514 amends current law relating to a deduction under the franchise tax for certain contracts with the federal government.
