AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Currently, the Physician Assistant Board (PAB) has nine members appointed by the governor. Of these nine members, only three of them must have at least five years of clinical experience as a physician's assistant. Many healthcare-related boards, such as the Texas Medical Board, have a majority of their members who practice in the field the board regulates, due to the complexity in understanding the intricacies of the occupation. Members of PAB are appointed for staggered six-year terms. The terms of three members expire on February 1 of each odd-numbered year.

S.B. 622 proposes changing the number of members on PAB to 13. Seven of the thirteen members must have at least five years of clinical experience as a physician's assistant. Expanding the number of members on PAB will aid in obtaining a quorum for their meetings. The terms of four or five members, as applicable, will expire on February 1 of each odd-numbered year. Lastly, the governor shall designate a physician assistant member of PAB as the presiding officer and that individual will serve at the will of the governor.

S.B. 622 amends current law relating to the physician assistance board.

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
