Committee Report (Substituted)

AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

Agents working for the United States Customs and Border Protection and the United States Department of Agriculture are currently responsible for agricultural inspections at commercial points of entry. Interested parties contend that the lack of a sufficient number of these federal inspectors has caused exceptional congestion in the stream of commerce affecting the state. Because Mexico's new super highway between Mazatlan and Matamoros is expected to divert significant amounts of produce from Arizona to Texas' land ports of entry, it is essential that state help ease congestion in the stream of international commerce.

S.B. 797 helps ease congestion at ports of entry along the Texas-Mexico border by creating the Trade Agricultural Inspection Grant Program. This grant program would be administered by the Texas Department of Agriculture and distributed to a nonprofit that has experience working with border inspection authorities to reduce border crossing wait times.

The committee adopted a substitute that requires that the grantee provide matching funds for the grant. This change will secure buy-in from the grantee while cutting the cost of the program by half. By leveraging private investment as well as state money, the grant program will generate over ten times the return on investment in economic growth here in Texas.

C.S.S.B. 797 amends current law relating to a grant program to reduce wait times for agricultural inspections of vehicles at ports of entry along the Texas-Mexico border.
