AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

In several places in the Family Code, "school" is referenced as either "primary" or "secondary." It has been generally understood that "primary" means elementary school, but there has not been clarity. This is important because the code allows people to "return children to school at the time school resumes" or to pick them up at the "time school recesses."

Often, there are times they will return the children to school at the "time school would regularly resume." The question has been which "school calendar" times we follow, especially in situations where a child is in preschool/prekindergarten. Without a clear definition of "school," there can often be confusion and therefore disagreement between parents, which is not in the child's best interest.

Section 74.21, Administrative Code, defines two levels of school: Elementary - kindergarten through Grade 5; and Secondary - Grades 6-12.

The purpose of S.B. 821 is to change all references in the Family Code from the word "primary" to "elementary" and to clarify that "elementary" includes "prekindergarten."

As proposed, S.B. 821 amends current law relating to references to school in the Texas Family Code.
