### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Current law generally restricts compensation of a county auditor from exceeding the total compensation of the highest paid elected county officer, other than a judge of a statutory county court, whose salary and allowances are set by the commissioners court. Several exceptions to this general rule for certain counties, however, are authorized in statute.

The current Caldwell County auditor is retiring in early April, and Caldwell County officials are concerned that the present statutory restriction on the auditor's compensation will impede the ability of the county to attract a new, highly qualified certified public accountant with superior auditing skills. The officials, therefore, seek to amend the law to authorize the county commissioners court to set the compensation and allowances of the auditor in an amount that exceeds this restriction.

This legislation extends to Caldwell County the authorization for the county commissioners court to set the compensation and allowances of the county auditor in an amount that exceeds the limit otherwise established by statute, if the compensation and allowances are approved by the county commissioners court.

S.B. 871 amends current law relating to the compensation of county auditors for certain counties.
