### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Interested parties have expressed a need to strengthen the Texas Department of Agriculture's ability to take administrative action against individuals advertising and contracting for pest control services without a pest control license and the required training, criminal background checks, and insurance. H.B. 1586 seeks to do so by clarifying the service-related activities for which a person is considered to be engaged in the business of structural pest control.

H.B. 1586 amends current law relating to the services that require a structural pest control license and changes the applicability of an occupational license.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
