AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

H.B. 2007 allows military dental professionals who were stationed in Texas but licensed in another state to obtain a limited volunteer license to help treat underserved civilian populations in Texas. Under current law, active and retired military physicians in good standing and licensed in other states are able to provide charitable care in Texas. By extending this provision to dentists and dental hygienists, this bill enables communities to use an existing resource to provide needed dental care to indigent and uninsured Texans.

Under the bill's provisions, the Texas State Board of Dental Examiners (TSBDE) is required to adopt rules for issuing a limited volunteer license for military dentists and dental hygienists who were licensed and in good standing in another state, authorized to treat military personnel or veterans, and met other board requirements. The license would allow volunteer dentists and hygienists to work without compensation at a clinic that primarily treated indigent patients. License holders would be subject to all TSBDE rules and requirements, including those regarding disciplinary actions.

H.B. 2007 amends current law relating to the licensing and regulation of certain military dentists and dental hygienists who provide voluntary charity dental or dental hygiene care.
