### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

S.B. 319 is the Sunset bill for the Texas State Board of Veterinary Medical Examiners (TBVME). TBVME licenses and regulates the veterinarians, veterinary technicians, and equine dental providers practicing in Texas.

The Sunset Advisory Commission (Sunset) found significant administrative and operational failures at the agency, including poor financial management and significant data reliability problems. While agency management played a key role in these problems, the commission concluded they ultimately resulted from a lack of leadership and oversight from TBVME.

Sunset also made troubling findings regarding TBVME's enforcement procedures. Texas veterinarians have a high risk of controlled substances diversion, reporting the highest theft and loss of controlled substances among all practitioners over the last five years. However, the state does not collect data on the controlled substances veterinarians dispense directly to their clients, and TBVME has only inspected about seven percent of its licensees in each of the last five years.

Finally, when TBVME has received a complaint or initiated an investigation, enforcement proceedings have been inconsistent, creating significant distrust between licensees, the public, and the agency.

Because TBVME is struggling, S.B. 319 only continues the agency for four years and requires it to submit quarterly reports regarding its implementation of Sunset's recommendations. S.B. 319 also sweeps the current board and prohibits members appointed on or before January 1, 2016, from being reappointed. Further, S.B. 319 modifies the structure of TBVME to ensure it more accurately reflects its licensee population.

In light of the enforcement problems TBVME has experienced, S.B. 319 makes several changes to the agency's investigatory and disciplinary procedures. These changes are designed to improve consistency, fairness, and transparency along each stage of the process.

S.B. 319 also increases the reporting, monitoring, and oversight of veterinarians' use of controlled substances. For example, S.B. 319 requires veterinarians to report and review certain information in the Prescription Monitoring Program. S.B. 319 also allows TBVME to perform risk-based inspections related to controlled substances. These changes should reduce the diversion of dangerous drugs in Texas.

Taken together, the provisions of S.B. 319 provide much-needed reforms to an agency that has struggled to comply with its basic management functions and oversee the licensee population it regulates on behalf of the state. (Original Author's / Sponsor's Statement of Intent)

C.S.S.B. 319 amends current law relating to the continuation and functions of the State Board of Veterinary Medical Examiners, authorizes a reduction in fees, and provides penalties.
