AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

There have been concerns regarding the amount of penalties that can accrue for smaller intermediate care facilities that care for persons with an intellectual or developmental disability. Although the legislature recently revised the administrative penalty structure to provide for more uniform penalties across service types, it has been noted that disparities remain and that these smaller facilities could be penalized out of business. H.B. 3803 would cap the total amount of a certain administrative penalty assessed for each day a violation occurs or continues for a facility with fewer than 60 beds and a facility with 60 beds or more. H.B. 3803 would ensure that facilities are held responsible for their actions, while still allowing them the opportunity to continue to serve their community.

H.B. 3803 amends current law relating to the maximum amount of an administrative penalty assessed on certain long-term care facilities.
