AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

S.B. 2132 seeks to increase access to and use of the Healthy Texas Women program. In its September 2018 report, the Maternal Mortality and Morbidity Task Force recommended increased access to healthcare for the year after a pregnancy and throughout the interconception period by facilitating the continuity of care and working towards effective transitions of care. S.B. 2132 will help increase access to care for women who are enrolled in the Healthy Texas Women program after their Medicaid for Pregnant Women coverage expires.

The bill directs the Health and Human Services Commission to alert eligible women of their enrollment into Healthy Texas Women and the services provided through the program, and to provide information on local health care providers that participate in Healthy Texas Women.

As proposed, S.B. 2132 amends current law relating to the provision of information to certain women enrolled in the Healthy Texas Women program.
