AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

In some instances, a municipality may be located in more than one county. This can create unique challenges for law enforcement. Concerns have arisen about the validity of collecting a blood specimen in alcohol related driving offenses in which a warrant is issued in one county, while the blood draw is taken in a separate, neighboring county.

S.B. 1047 allows the blood draw for an intoxication offense to be done in an adjacent county and by a law enforcement officer authorized to make an arrest in the county of execution.

As proposed, S.B. 1047 amends current law relating to the execution of a search warrant for taking a blood specimen from certain persons in certain intoxication offenses.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
