### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

Currently, city and county governments with a fleet of motor vehicles in Texas must register the vehicles annually. The annual acquisition and distribution of plates, stickers, and registration cards is time-consuming and costly. Local governmental entities with fleets of thousands of motor vehicles find themselves performing renewals monthly throughout the calendar year. For example, Harris County has approximately 4,800 vehicles that require inspections and registration on an annual basis. Each month, county staff registers about 400 vehicles, including 300 passenger vehicles and 100 trailers and large trucks. Each week, Harris County spends approximately 32 hours on renewals. This workload includes receiving renewal notices, emailing departments that vehicles need an inspection, tracking incoming inspections, printing registration stickers, logging received registration stickers, and distributing stickers. In total, this amounts to 1,664 hours a year spent on the inspection and registration process alone.

S.B. 1064 eliminates this inefficient process by providing a semi-permanent process that allows local governmental entities to purchase registration cards for an extended renewal period of three years. The bill will help Texas local government to enjoy greater operational efficiency and avoid potential service disruptions.

S.B. 1064 amends current law relating to the extended registration of certain county fleet vehicles.
