### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

The purpose of S.B. 1678 is to protect the personal information of individuals who belong to, volunteer for, and support the charities of their choice. The freedom to associate with others for the purpose of advancing ideas is a fundamental right. This right is violated when a person's privacy is invaded merely due to the support of a group advocating a particular point of view.

The right for charities to keep their donor lists private has been settled ever since members of the NAACP sued Alabama over examples of "intimidation" that their members faced during the civil rights era (NAACP v. Alabama (1958)). Currently, Americans for Prosperity (an organization that counts many Texans as donors) is suing the State of California in the Supreme Court to protect the right not to hand them their donor list. Across the political spectrum, people have endured, and continue to endure, intimidation and potential violence, all because of their membership in, or support of, a particular cause.

S.B. 1678 protects against this scenario by prohibiting any state or local government actor from requesting information relating to a person's membership of, or donations to, a charitable organization organized under sections 501(c)(3) and 501(c)(6) of federal tax law, as well as allowing a person to bring a civil action against any state or local governmental actor that requests or releases that person's information relating to their donations to, or membership of, charitable groups organized under sections 501(c)(3) and 501(c)(6) of federal tax law. It also exposes such state or local governmental actors to criminal penalties for such behavior, classifying the release of donor information as a Class B misdemeanor.

S.B. 1678 does not apply in any way to individuals or groups who engage in political activity. It does not apply to political action committees. It also does not apply to individuals giving to political candidates, campaign expenditures, or groups that exist to influence elections. This Act would not change existing Texas requirements regarding nonprofit reporting, accountability, and transparency.

As proposed, S.B. 1678 amends current law relating to the prohibited release by a public agency of information regarding the members, supporters, or volunteers of or donors to certain nonprofit organizations and creates a criminal offense.

### **RULEMAKING AUTHORITY**

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.
